Professional Summary

Computer Science graduate with hands-on experience building full-stack web applications using React, Node.js, Express, and MongoDB. Skilled in REST API development, SQL databases, cloud technologies, and Agile collaboration. Certified in Microsoft Azure with a strong interest in scalable software systems and AI-powered applications.

Technical Skills

- **Languages:** Java, Python, JavaScript, HTML/CSS
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Framework & Technologies:** Artificial Intelligence, REST APIs
- **Tools:** Azure, Visual Studio, IntelliJ IDEA, Git & GitHub, SQL , Postman
- **Software Engineering:** Data Structures, Algorithms, OOP, Agile Development, Problem-solving

Education

BSc Computer Science University of the Western Cape	Feb 2022 - Nov 2025
National Senior Certificate Sinthumule Secondary School	Jan 2019 - Nov 2020

Experience

Full-Stack Developer Intern

Future Interns

July 2026 - Present

- Developing a full-stack Client Lead Management System for capturing, tracking, and managing customer leads.
- Implementing CRUD operations, authentication, role-based access control, and lead status tracking.
- Technologies: HTML, CSS, JavaScript, Node.js, Express.js, MySQL, Git, REST APIs.

Projects

MEDLINK

April 2026 - May 2026

- Developed a full-stack healthcare networking platform that enables healthcare students and professionals to connect, build professional profiles, and discover employment opportunities.
- Built responsive frontend interfaces using React and integrated backend services using Node.js and Express.js.
- Implemented features that allow users to upload CVs, notifications, messaging, authentication/login, searching.
- Technologies: MongoDB | Express | React | Node.js

- Developed a responsive e-commerce web application for selling gym equipments
- Designed user-friendly interfaces using HTML/CSS, JavaScript.
Implemented product browsing and responsive layouts for improved user experience
- Technologies: HTML/CSS | JavaScript | Github

UNICARE

September 2025 - October 2025

- Developed a centralized healthcare management mobile application to store and manage patient records, prescriptions, and appointment reminders.
- Designed and integrated RESTful APIs for secure communication between frontend and backend systems.
- Collaborated in an Agile team environment, participating in sprint planning, daily stand-ups, and iterative development cycles. Used Git for version control and team collaboration.
- Technologies: Kotlin | Java | PostgreSQL | RESTful API

Certifications

Microsoft Certification

Microsoft Certified: Azure Fundamentals

Microsoft Certification

Microsoft Certified: Data Fundamentals

NEMISA- Certificate of Completion

Microsoft Certified: Azure Developer Associate

IT Varsity

FNB App Academy: Certificate in Full-Stack Development
